

We are always asked what the difference is between Nice Pebbles and Riviera Pebbles. The answer: not much really. Both have some very high end and stylish apartments, houses and villas on offer to our guests. Nice Pebbles showcases the best of what we can offer in Central Nice for location, style and amenities. Riviera Pebbles showcases the rest of our 100-plus portfolio over a wider area of Nice and then the rest of the French Riviera. We are adding to our rental portfolio all the time.
